# Website Design- Assignment 3

1) Create a page which has four boxes covering the whole screen.

<table>
<tr><td>Box 1</td><td>Box 2</td></tr>
<tr><td>Box 3</td><td>Box 4</td></tr>
</table>

2) Each box must be a modal popup(hint: when creating multiple modal popups change the id's in the js and the code)
3) Each box when clicked should have a image on the left and content on the right
4) The page must be responsive

Create a page which starts with responsive navigation followed by a slider and content of the resume and the page must be responsive
